Career Objective

Motivated and detail-oriented BS Computer Science student seeking an opportunity in Software Development, Automation, or Data Science to apply programming, database management, and problem-solving skills in a professional environment. Passionate about developing efficient software solutions and eager to gain hands-on industry experience while contributing to organizational growth.

Education

Bachelor of Science in Computer Science (BSCS)

University of Management and Technology

Expected Graduation: 2027

Current Semester: 6th Semester

CGPA: 3.12/4.00

Technical Skills

- **Programming Languages:** C++, Assembly Language
- **Database Technologies:** MySQL
- **Core Computer Science Concepts:** Data Structures, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Compiler Construction, Analysis of Algorithms
- **Web Technologies:** HTML, CSS, JAVA SCRIPT, DJANGO

Academic Projects

Hotel Management System

Technologies Used: C++, Data Structures

- Developed a hotel management system using C++ and Data Structures concepts
- Implemented functionalities for customer record management and booking operations
- Optimized data storage and retrieval processes using structured programming techniques
- Applied problem-solving and algorithmic logic to improve system functionality

Login Verification System

Technologies Used: HTML, CSS, JAVA SCRIPT

- Designed and developed a basic login verification interface
- Created responsive front-end layouts using HTML and CSS
- Focused on clean user interface design and usability improvements
- Collaborated on interface structure and front-end implementation

Certifications

- Hafiz-e-Quran Certification

Soft Skills

- Problem Solving
- Team Collaboration
- Adaptability
- Communication Skills
- Time Management
- Analytical Thinking

Additional Information

- Interested in Software Engineering, Automation, and Data Science
- Willing to relocate for professional opportunities
- Quick learner with strong motivation for continuous improvement
